

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

GE-001-RE

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed

in patent number 6,122,015, granted 19 September 2000, and for which a reissue patent is sought on the invention METHOD AND APPARATUS FOR FILTERING DIGITAL

TELEVISION SIGNALS

the specification of which

☒ is attached hereto.

☐ was filed on _____ as reissue application number _____ / _____
and was amended _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

U.S. Patent 6,122,015 ('015 patent) is partly inoperative or invalid because the claims are narrower than they should be in view of the '015 patent's disclosure and the prior art of record. Claims 1-24 of the patent are directed to a system and method for filtering digital television signals that included a transmitter and a receiver. Broadening of the claims with regard to the system or apparatus for transmitting digital signals, the system or apparatus for processing received digital signals, the nature of transmitting and the nature of receiving digital signals is appropriate.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number
